

IF YOUR CHILD PRESENTS COVID-19 SYMPTOMS

COVID-19 SYMPTOMS

A high temperature:
37.8 Celsius and above

A new, continuous cough:
This means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours.

A loss or change to your sense of smell or taste:
This means you've noticed you cannot smell or taste anything, or things smell or taste different to normal.

Your child does **NOT** have Covid-19 symptoms if they have a runny nose, cold or they are sneezing.

AT HOME

DO NOT send your child or any siblings into school.

Call the school office and inform them that your child is displaying symptoms.

AT SCHOOL

Admin office will contact you to collect your child **and** any siblings from school. Collect your child from school via the office gate on Filmer Road. (Parent/carer not permitted to enter school)

Parent/Carer to seek a test for your symptomatic child and any other household members with symptoms by contacting:
<https://www.gov.uk/get-coronavirus-test>

Symptomatic child must stay at home for at least 10 days.

Other household members without symptoms must self-isolate for 14 days.

Pupils and staff members in the same bubble to continue attending school unless they too display symptoms.

Parents should inform the school of the test results

NEGATIVE TEST RESULT

If the test delivers a negative result, your child feels well and no longer has Covid-19 symptoms - they can stop self-isolating and return to school.

Other members of your household can stop self-isolating if they have no Covid-19 symptoms.

POSITIVE TEST RESULT

Symptomatic child to self-isolate for at least 10 days from the onset of their symptoms. Your child can return to school after the 10 days only if they do not have symptoms other than a cough or loss of sense of smell/taste.

If your child still have a high temperature, they should keep self-isolating until their temperature returns to normal. Parent/carer should seek medical advice.

Other members of your household should continue self-isolating for the full 14 days. If anyone in your household becomes unwell during the 14-day period, you should arrange to have a test to see if they have COVID-19.
