

# Eaglet News

On Monday the leaves on our plants were wilting and the soil was very dry. We had to quickly water them, which involved the children having to work out how to transport heavy buckets of water. As a result team work was developed.

Reception have been making two digit numbers. They have also been developing their counting and sequencing skills. Can you spot 38?

## Reminders

18<sup>th</sup>-21<sup>st</sup> June – Art week

22<sup>nd</sup> June -- INSET – school closed for children.

### Stars of the Week

N- Nicholas for improved learning behaviours

RP- Kitty for amazing writing

RC- Maria for great reading and writing.

# Nursery

## Our learning

We all really enjoyed our trip to the Science Museum. In the Science Garden we explored lifting, pulleys, how to direct water, mirrors, sounds and much, much more.

Later on, we watched a play of The 3 Little Pigs and re-enacted it ourselves.

We also invited parents into Nursery to see how we learn.

### Next week

We will be immersing ourselves in Art Week. We will be exploring different media and studying Scotland.

# Reception

## Our learning

This week Reception have been studying the book 'Bog Baby.' They have made bog babies using clay. This involved manipulating the clay and using tools. They learned how to use a glue gun as well.

They have also been writing instructions and were involved in a shared write. They have been learning how to use different punctuation marks, including ! ?

Outside we used bean bags to partition numbers and count the whole.

We have also been talking about the World Cup.

### Next week

We will be immersing ourselves in Art Week.
