2nd February - Nursery Prospective Parent Tour, 9.15am

23rd February – Nursery Prospective Parent Tour, 9.15am

Eaglet News

This week Reception have been learning about calendar and time in maths. This was a great opportunity for the children to share what they know about the seasons, and learn some new things too. When you are out and about, it will really benefit your child if you comment and make observations about changes you see in the natural world. Giving children simple explanations about natural phenomena, such as why we can see our breath on cold days, is a really great way to build their scientific understanding and curiosity for the world around them.

In Nursery, the children have been exploring pirates! The children were taught some pirate phrases and used these in their dramatic play. They looked at maps and learnt how simple line symbols can be used to represent different features on a map. The children then had a go at making their own treasure maps, using marks for meaning.

Reminders

Toys From Home

Please can we remind all parents and caregivers that toys from home are not permitted in school. We are seeing an increase in toys coming in to school in pockets and book bags. This inevitably leads to lost or broken belongings which causes great distress and can derail our entire day! Please support us by enforcing this rule yourselves with your child.

Stars of the week

Nursery – Teddy

RM - Ava

RP – Delilah-Rai

Reception

Our learning

This week in pictures

Reception have been exploring personal goals and challenge!

Next week

Personal, Social and Emotional Development

We will continue to explore perseverance in the face of challenge.

Communication, Language and Literacy

We will be reading the book *Oliver's Vegetables*, as we explore healthy eating and write shopping lists and recipes for a delicious smoothie.

Mathematics

We will be exploring addition and subtraction with numbers to fifteen.

Expressive Art and Design

We will be exploring print with different fruits and vegetables.

Understanding of the World

We will be learning about the importance of a healthy, balanced diet and exploring new tastes and textures as we make our own smoothies.

Nursery

Our learning

This week in pictures

Nursery have been exploring floating and sinking.

Next week

Personal, Social and Emotional Development

We will be discussing how we can use our words to be kind and encouraging to others.

Communication, Language and Literacy

We will be developing our ability to follow instructions when making smoothies. In Phonics we will continue to look at single letter phonemes and graphemes.

Mathematics

We will be looking at ABCABC patterns; creating and extending.

Understanding of the World

We will look at the skill of printing using a variety of materials.
