

Upcoming Events

Friday 18th March – Red Nose Day, children to dress in red

Monday 28th March – Reception trip to Wimbledon Common

Eaglet News

This week Nursery have been learning all about spiders! Using the Power of Reading text, *Aargh Spider!* At the beginning of the week, children shared their opinions about what they thought of these creepy crawlies...by the end of the week, more than a few children had changed their mind! Perhaps because they learnt about how helpful spiders can be in keeping other insects and pests at bay. The children made pet spiders and learnt all about spider habitats.

In Reception, we looked at the text, *Errol's Garden*, all about a boy who, along with his friendly community, learnt that you can grow things just about anywhere! The children amazed us with their ideas for their own dream gardens, with lots of rollercoasters, teddy bear trees, and candy floss grass to be seen! It has been really exciting to see the children's confidence in phonics grow and writing begin to take shape. We've been talking lots about the gift of writing and how it can help us spread our voice and messages far and wide. We built on this idea to send Errol a letter telling him what we'd like to bring to his rooftop garden.

Stars of the week

Nursery – Alexander

RM - Rory

RP – Elsie

Reminders

Reception trip to Wimbledon Common

We are excited to be heading for a day in the woods on Monday 28th March. We will need some parent volunteers on the day. Please speak to your class teacher if you can help.

Tissues and Junk Modelling

Early Years would appreciate donations of tissues and junk modelling materials, e.g. cardboard boxes of different sizes, yoghurt pots, trays, and other plastic containers, toilet roll tubes, bubble wrap, etc.

Red Nose Day

Please don't forget Red Nose Day next Friday, where children can wear red to school – minimum donation £1. Please practice some jokes at home ready for our joke competition!

Reception

Our learning

This week in pictures

Reception have been designing their dream gardens and using their phonics to express their ideas.

Next week

Science Week

Next week we will be celebrating Science Week as a whole school with a focus on the theme of 'Growth.' We will be conducting some fun experiments to help us understand human, plant and bacteria growth!

Nursery

Nursery have been walking their pet spiders!
