

Upcoming Events

March 17th

Science week dress-up day – children may come to school dressed in a science theme. There is no cost for this event.

Science Day parade – 9.10

Parents are invited to watch the children parade in their costumes in the main playground.

Eaglet News

Here's to another great week in Early Years! Reception children impressed us all with their growing knowledge of 3D shapes and their properties. Our week-long observational study of daffodils prompted some fantastic writing and talking about the changes the children noticed. It will be interesting to see whether the children's predictions about what the daffodils will look like on Monday were right. We may possibly be returning to classrooms filled with giant flowers!

Nursery have also begun to think about the natural processes of growth, change and decay, as they made their own mini-greenhouses to grow a broad bean. The children are very excited to see how their beans are getting on next week.

Early Years were very lucky to have two visitors this week. Nursery and Reception were visited by Lottie Moore, a children's author who came to read her stories to the children. The children were delighted to be regaled with tales of a naughty green jelly!

Reception were also thrilled to be audience to Year 4's wonderfully energetic performance with *Albert's Band*, a skillful group of musicians from the Royal Albert Hall. Our Eaglets did a great job of clapping along to the beat and even got to do a clapping solo!

Reminders

This half-term's Eaglet fund of £3 is now due. If you have not already done so, please send this in to your class teacher.

Sound books

Please could you ensure that sound books are returned to school next week to be updated.

Library books

Please could Reception parents be aware that library books must be returned to school every Wednesday, so that children may select a new book.

Parents' Evening

Please be reminded that parents' evening is approaching, so please keep your eyes open for information on how to book your slot: this is to be found on Page 1 of the main newsletter, Golden Eagle.

Stars of the week

Nursery – Soha

Reception 1 – Bonnie

Reception 2 - Ben

Nursery

Our learning

This week in pictures

Elias and Molly sorting vehicles according to 'wheels' and 'no wheels' criteria.

Next week

Personal, Social and Emotional Development

We will continue to develop our ability to name and recognise emotions.

Physical Development

We will focusing on developing our fine motor skills through a range of challenges.

Communication, Language and Literacy

We will be sequencing the story of the Naughty Bus and thinking of our own endings.

Mathematics

We will playing maths games to help us develop our number knowledge.

Understanding the World

We will enjoying a range of experiments to celebrate Science Week, around the theme, 'Changes'.

Reception

Our learning

This week in pictures

Xyrisa exploring 2D shape and pattern to create a cat.

Next week

Personal, Social and Emotional Development

We will continue to explore 'meta-moments' - those moments of pausing and breathing when we feel frustration rising.

Physical Development

We will be developing our ball skills, controlling the ball with our feet and hands.

Communication, Language and Literacy

We will continue exploring poetry, culminating with some performance poetry.

Mathematics

We will begin to explore addition and subtraction.

Understanding the World

We will be doing several experiments to help us understand changing states as part of a whole-school Science week.
