Nursery/Reception Bake Sale

Eaglet News

What a fun week we've had in Eaglets! Reception were wonderful hosts to a mysterious intergalactic visitor who had crash-landed in our classroom! This prompted some fantastic learning about the Solar System, and the children worked hard to make rocket ships to help our visitor get back home. Today they will discover that he plans to stick around for one more week!

Reception also began to learn about money.

We have been recognising, naming and handling coins, as well as beginning to explore how a given value can be represented with different coins.

Nursery also explored money this week, role-playing in a supermarket and using coins to pay for things.

Nursery enjoyed drawing shapes with chalk in the outdoor area with Mrs Bryant. They also used their fine motor skills to manipulate dough into different shapes, and used mathematical language to describe them.

Nursery Trip

Nursery visit to Bishop's Park – Date to be confirmed. We need helpers! Please speak to Mrs Bryant if you think you can help.

Show and Tell

Please can we remind parents not to allow their child to bring in items from home. Please keep your eye out for more information on when your child's turn for show-and-tell comes around.

Home Learning Challenge

Nursery: Can you draw a large number on A4 card (available from school) decorate it and bring it into school? Can you find some numbers around your flat/house? Can you write them down or take a photo?

Reception: Can you use money to pay for something at the shop? Take a photo and tell us what you said to the shopkeeper.

Stars of the week

Nursery - Lacey

R1- Ainsley

R2 – Georgia

Nursery

Our learning

This week in pictures

Roman made a triangle from playdough.

Next week

Physical Development

We will working on our understanding of how our actions affect other children, and how to try to solve conflicts.

Phonics

We will be exploring *f* and *e* – forming it in the air, writing it, and saying the sound out loud.

Communication, Language and Literacy

We will be talking about planting bean seeds and the growth of the tomato plants.

Mathematics

We'll be counting objects accurately (to 10) and recognising numerals 0-5.

Understanding the World

We will be talking about what the bean seeds will need to grow.

Expressive Arts and Design

We will be creating magnetic fish.

Reception

Our learning

This week in pictures

Victoria explored money and ways of making the same total using different coins.

Next week

Personal, Social and Emotional Development

We will be reflecting on what we have enjoyed, what we think we are good at, and what we want to achieve next.

Physical Development

We will be combining movements in time to music.

Communication, Language and Literacy

We will be authors, making our own 'Space' books.

Mathematics

We will begin looking at doubling and halving.

Understanding the World

We will continue following the children's interest in the Solar System.

Expressive Arts and Design

We will be using malleable materials and tools to design and create our own aliens, as well as exploring a range of sensory materials.
