

Upcoming Events

11th – 15th March – Science week

15th – British wildlife dress up day, parade at 9:00 am

18th March & 25th March – Parents Evening

Eaglet News

We began our week in Reception by looking at the story 'How to catch a star' and this led everyone to think about how they would catch a star. We then tried to draw and build models of what we would use with ideas ranging from robots to trampolines. This week has also been exciting because of the anticipation of 'World Book Day' today especially as we get to come into school in our pajamas!

In Nursery we have been learning about aliens! We have been using our imaginations to create our own aliens, and developing our descriptive language to talk about them. A highlight of our week was getting to use a brand new medium...ultra-light clay! The children were really excited to work with this amazing stuff, and loved exploring the different textures and effects that could be created. Our ultra-light clay aliens look stunning and we have been working hard at making space ships for them to live in too.

No phonics next week (Reception)

Due to our busy Science week schedule next week, there will be no phonics lessons in Reception next week. This means there will be now new CVC word boxes sent home next Friday (15th March)

Bishops Park trip (Reception)

As part of our science week lessons next week, Reception will be heading to Bishops Park for the afternoon on Thursday 14th March. Whilst here we will be carrying out a mini beast hunt (weather permitting!) An email has been sent out via our class reps about volunteers to help us on this trip but we currently have no volunteers from Ladybirds (RO) so if you or a family member can help us on this afternoon please let us know otherwise we may not be able to go ahead with our trip.

Junk modelling

For one of our science week activities next week, we need a range of junk materials to use to build a mini beast. If you have any recyclable materials at home please pass these on to your child's class teacher.

Nursery Stay-and-Play

Apologies that next week's Stay-and-Play on 15th March will need to be cancelled. This is because of our Science Week costume parade that will be taking place at 9am in the playground. Parents and carers are welcome to stay for this event.

Stars of the week

Nursery – Ayla

RC – Milo

Reception

Our learning

Next week

Physical Development

We will be moving in different ways to escape from the spider's web.

Communication, Language and Literacy

We will be labelling mini beasts.

Mathematics

We will be exploring the relationship between doubling and halving.

Expressive Arts and Design

We will be creating mini beasts out of range of materials.

Understanding the World

We will be searching for mini beasts and observing some butterflies grow.

Nursery

Our learning

This week in pictures

Nursery were adorable in their pyjamas and book character costumes!

Next week

Physical Development

We will be working on our scissor skills to make paper bats.

Communication, Language and Literacy

We will be making diaries to record what we notice about the ladybird eggs we will be rearing.

Mathematics

We will be counting non-objects, e.g. claps and jumps.

Expressive Arts and Design

We will be exploring patterns in the natural world and creating our own symmetrical paintings.

Understanding the World

We will learning all about British Wildlife as part of our school-wide Science week theme.
